GERMANY LODGES A PROTEST. It is Against Certain Parts of Philippine Tariff Act.

Washington, April 16 .- Not only the British but the German government has lodged a strong protest with the state department against the application of that part of the Philippine tariff act re-cently enacted and just ordered into operation which authorizes the rebate of a portion of the export duties on Philippine products when imported into the United States. The great matter of complaint is hemp, which is imported into England and Germany in vast quantities from Manila. The afforded to American importers will amount, it is alleged, to a difference of three-eighths of a cent a pound in favor of the American rope maker, a discrimination which will practically destroy the British and German trade, according to the protestants.

These protests have been referred to the war department, which is at present in control of the Philippines, and the officials are puzzled as to their disposition. As the rebate provision is part of the law of the land, it is probable that the protestants must find their re-lief in the courts, just as the Russian sugar producers are now trying to do.

The government here has come to accept the Ireland and O'Gorman view as the most

WANT BRITISH CAMP REMOVED.

Chicago, April 16.-Resolutions delaring sympathy for the Boers and asking President Roosevelt to break up the alleged British camp near New Orleans were adopted by the Holland society of Chicago, during a banquet at Kinsley's tonight. The reslutions urge the consolidation of all the leagues in the United States now engaged separately in raising money for the benefit of the Boer prisoners, reconentrados and sick and wounded.

The principal speech of the evening was made by Dr. Nicholas Senn, who replied to the toast: "Holland as a Power of Civilization." He said the Boers had waged war for two years with the sympathy of the entire world. "They have taught proud England an important and expensive lesson. Never," he said, "has England been so deeply humiliated since the birth of our own country." A significant portion of the resolutions was the following: "That we, the members of the Hol-land society of Chicago, assembled to commemorate the birthday of William the Silent, the great pioneer of civil and religious freedom, do most heartly sympathize with the brave and patriotic people of the Orange Free State and the South African republic in of Great Britain to retain their indeing to permit a resolution of sympathy the South American republics, to be considered or to be passed by either house of Congress, and thereby express the true sentiment of the great majority of the American people to the brave scarborough, South Carolina; Spimen and women of the republics of Mississippi; Taylor, Alabama; Tho South Africa; that we regret the policy of our government in permitting re-cruiting camps for the British government to exist openly within territory, in defiance of treaty stipula-tions and international law.
